Projects

Jan 2023 - May 2023

Univote (An e-Voting Web Application)
- It is a React, HTML, CSS, and Firebase project designed to facilitate voting for both physically handicapped individuals and able-bodied individuals. The project enables them to cast their votes conveniently using a mobile device or laptop, eliminating the need to physically reach a polling booth.

Sept 2022 - Dec 2022

Spotify Website Clone
- It is an HTML, CSS, JavaScript-based project.

June 2021 - July 2021

Bank Transaction Management Project, *Minor Project*
- It is a C++-based project for managing various transactions such as new accounts (Creation, Updation) and cash withdrawals, cash deposits, etc.
